

Appl No. 10/713,090  
Amdt. Dated August 16, 2004  
Response to Office action of June 3, 2004

4

### REMARKS/ARGUMENTS

In the amendments made herein, claim 3 has been amended to more explicitly define that "the same" means that the material of the inner layer is the same material as the material of the outer layer.

Each of the claims has been amended so that the claim now defines a "printer" having a printhead assembly with the features of the assembly being further defined. Accordingly, Applicant submits that the claims are no longer co-extensive in scope with the claims of co-pending application no. 10/713089.

Applicant submits that this response is fully responsive to each of the issues raised in the Office Action. Accordingly, further consideration of the application is respectfully requested.

Very respectfully,

Applicant:
